SUMMARY

Full Stack and AI Developer with hands-on experience building production-grade SaaS platforms, agentic AI workflows, and real-time applications using Next.js, TypeScript, and modern cloud infrastructure. Skilled in integrating large language models, designing scalable databases, and delivering measurable outcomes.

SKILLS

Languages: TypeScript, JavaScript, Python, Java, C++, SQL
Frontend: Next.js, React, TailwindCSS, shadcn/ui
Backend: Node.js, Express.js, Prisma, REST APIs, Inngest
Clouds & Databases: AWS, PostgreSQL, MongoDB, Docker, Redis
AI & ML: LLM Integration, RAG, Prompt Engineering, Vector Embeddings.
CS Fundamentals: OOPs, System Design, Computer Networks, Operating Systems, Microservices

PROJECTS

NightCode: AI-Powered Terminal Coding Assistant | *TypeScript, React, Node.js, Hono*  [Source Code](#)
Try it: `npm i -g ainightcode`

- Architected and published a production-grade **CLI tool** to npm (**ainightcode**) using **Hono** for lightweight routing, garnering **1,000+** global downloads.
- Engineered a provider-agnostic AI integration layer supporting **4 LLM providers** (OpenAI, Anthropic, Google, Groq) with token-level real-time streaming via **Server-Sent Events (SSE)**.
- Implemented secure **OAuth 2.0** authentication with **PKCE** flow and a credit-based billing/metering system using **Clerk** for identity management and the **Polar API** for payments.
- Designed a full-stack architecture with a React-based interactive terminal UI, RESTful API backend, and **PostgreSQL** database schema managed via **Prisma ORM** with type-safe queries.

Autoflow: AI Automation Platform | *Next.js, TypeScript, React Flow, PostgreSQL*  [Source Code](#)

- Architected a node-based visual workflow editor using **React Flow** with drag-and-drop custom nodes, reducing pipeline setup time by **40%**.
- Engineered scalable frontend with **Next.js 16** and TypeScript, achieving **30% faster** page load performance via server-side rendering and code splitting.
- Integrated **GPT-4** and **Gemini AI** across Slack, Discord, and Google Forms with smart triggers, automating **80%** of repetitive tasks and improving operational efficiency.
- Designed **PostgreSQL** schema for workflow execution logs and **Polar** billing integration for subscription management with automated retry logic.

VoxInterview AI: Voice-based Mock Interview Platform | *Next.js, TypeScript, Vapi*  [Source Code](#)

- Built an AI-powered voice interview platform covering **5+ engineering domains** for technical and behavioural preparation, improving candidate readiness and confidence.
- Leveraged **Google Gemini AI** to generate domain-specific questions and deliver instant structured feedback with actionable improvement suggestions.
- Implemented **Vapi WebRTC** with Firestore synchronization, achieving sub-**200ms** voice response latency for seamless real-time conversational experience.
- Integrated **Firebase Auth** with a mobile-responsive **TailwindCSS** interface supporting all modern browsers.

ALGORITHMIC COMPETITIONS & ACHIEVEMENTS

- ServiceNow Virtual Internship Program (ServiceNow & AICTE):** Completed foundational training in **ServiceNow Administration**, **Agentic AI**, **Flows**, and **Automated Test Framework (ATF)**.
- Competitive Programming:** Solved **500+ problems** on **LeetCode** (Top 10% Globally) and **150+ problems** on **GFG**.
- 2nd Runner-Up — Hack-O-Holic Hackathon:** Recognized for technical execution and creative problem-solving among **100+ participants**.
- Salesforce AI Associate Certification (2025):** Certified in AI applications, automation workflows, and Salesforce platform integration.

EDUCATION

Graphic Era Hill University, Dehradun
B.Tech in Computer Science & Engineering

2023 – 2027
CGPA: 8.1 / 10
